DENTAL WELLNESS

October 31, 2013

I am pleased to recommend the services of Creative Upholstery. The dental clinic here at Changing Faces LP has recently completed a major refit. 6 dental chairs required a complete reupholstering. William Apeldoorn has done an outstanding job under the difficult timeline he was given providing workmanship and support of an exemplary quality. We are very happy with the result and look forward to working with William and Creative Upholstery in the future.
